

RAISE YOUR VOICE

**How are unmet needs
affecting your students
and classroom?**

*A Town Hall Forum on
Disrupted Learning*

Right now, many of our students are entering our classrooms unready to learn. At play are homelessness, trauma, unmet mental health needs and more; challenging behaviors are disrupting learning for all students. At the same time, class sizes are growing, resources are shrinking, and educators are being asked to do more with less.

*A Special Invitation from the
Oregon Education Association*

OEA is hosting town hall forums across the state to increase awareness of this issue and work toward building safe, inclusive, and welcoming classrooms for all students. Oregon Deputy Superintendent of Public Instruction Colt Gill will be present to listen to educators.

Join us for a discussion to share your experiences, contribute ideas, and seek smart solutions to ensure all students have the opportunity to learn and grow.
